

## Do you need an eye examination at home?

Optomise is a local service which since 1999 has been dedicated to the specialised provision of domiciliary eye care throughout Northern Ireland. By focusing on providing eye care at home we tailor our [eye examination](#) , equipment and aftercare to provide a service which is second to none.

We are passionate about our work and the service we provide and are proud to be Northern Ireland's largest provider of home eye examinations and the winner of 3 national awards.

Thank you for visiting our site and if you have any query about eye care or if we can be of any help or assistance please feel free to [contact us](#) .

### About us

We provide training on dementia and sight and how to improve quality of life and to date we have trained over 7000 care staff. We are involved with both Stirling and Bradford Universities and a number of National Charities in researching ways of improving eye care for older people
